

OCULAR AMNIOTIC MEMBRANE ALLOGRAFT

PROTECTIVE COVERING TO
AID IN OCULAR HEALING

WHY AMNIOTIC MEMBRANE?

Human amniotic membrane forms the innermost layer of the placenta. The thin and avascular membrane acts as a protective barrier for the developing fetus. Its properties provide a wide variety of potential benefits in regenerative medicine.

PROTECTIVE COVERING

The membrane sheet provides a protective covering that aids in wound management

IMMUNOGENICITY

The amniotic membrane has unique immunological properties, which will not trigger immune rejection¹

SCAFFOLD

The extracellular matrix acts as a scaffolding and potentiates the migration and adhesion of resident cells²

GROWTH FACTORS

Natural cytokines in the membrane aid in its regenerative and protective traits³

WHY SURSIGHT®?

Lightweight and flexible, providing a protective covering to aid in ocular healing.

SurSight® is specifically developed to be smooth and clear for ophthalmic applications. SurSight®'s minimally manipulated process retains the natural properties of the amniotic membrane, and provides clinicians with a flexible sheet that can be used in a variety of treatment applications with ease. SurSight® exceeds expectations due to our high quality production standards.

- Rigorous quality and serological testing exceeding FDA requirements
- Single layer of amnion to provide a smooth transparent finish
- Variety of sizes tailored to accommodate various clinical uses

Product Information

Learn more about SurSight[®]

SurSight[®] is regulated under Section 361 of the Public Health Service Act and is intended for homologous use.

Potential SurSight[®] Applications

+ Ophthalmology

What is SurSight[®]?

SurSight[®] is a dehydrated, minimally manipulated, amniotic membrane allograft for homologous use. It is provided in multiple sheet sizes to allow maximum flexibility for a variety of clinical applications.

It has been specifically processed to generate a smooth, transparent finish ideal for ophthalmic applications. Our proprietary processing methods yield a sterilized product that is ready and safe for use.

Amniotic Membrane Sheet

Potential SurSight[®] Benefits

- Exceptional Clarity
- Smooth Finish
- Immunogenicity
- Protective Covering
- Non-Steroidal
- All-Natural

Is SurSight[®] Safe?

SurSight[®] is thoroughly tested for safety. We pride ourselves on safety standards that exceed regulatory requirements by performing additional serological tests often missed by our competitors.

Allograft Sizes

SurSight[®] comes in a variety of circular allograft sizes tailored for ease of use

Optimized For Comfort

Since amniotic membrane can be used in a wide variety of applications, we offer sizes specifically designed to meet the needs of our providers.
